EURORAI seminar from 24 to 26 April 2025 in Oviedo

Geographical location of the State of Saxony

Source: Sächsische Landeszentrale für politische Bildung

Short presentation State of Saxony

Population: approx. 4 million residents

Surface area: 18.400 km²

Population density: 220 residents/km²

State budget:
EUR 24.0 billion (2023)
EUR 24.9 billion (2024)

GDP: EUR 156 billion (2023)
EUR 38.100/resident

Saxony is one of 16 countries of the Federal Republic of Germany

10 counties, 3 district-free cities, 415 municipalities

Approximately 96.000 jobs in public administration

Parliament with 120 members

Court of Audit with 235 employees

The Court of Audit of Saxony in Döbeln

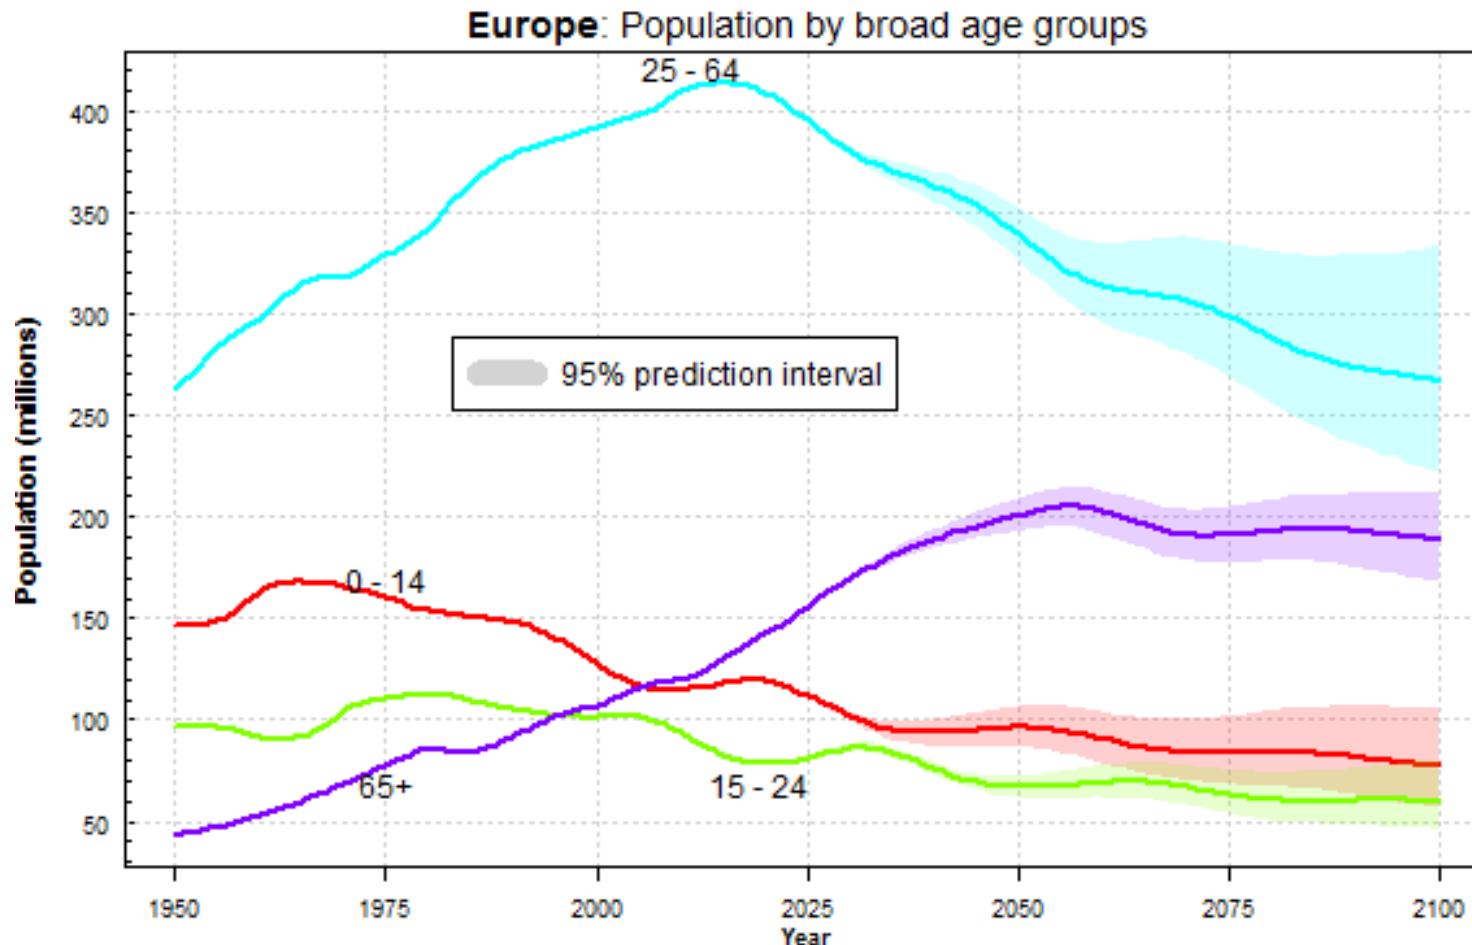

SÄCHSISCHER
RECHNUNGSHOF

Freistaat
SACHSEN

Population development in Europe by broad age group from 1950 to 2100

→ Demographic development is a pan-European challenge.

Population by broad age group:

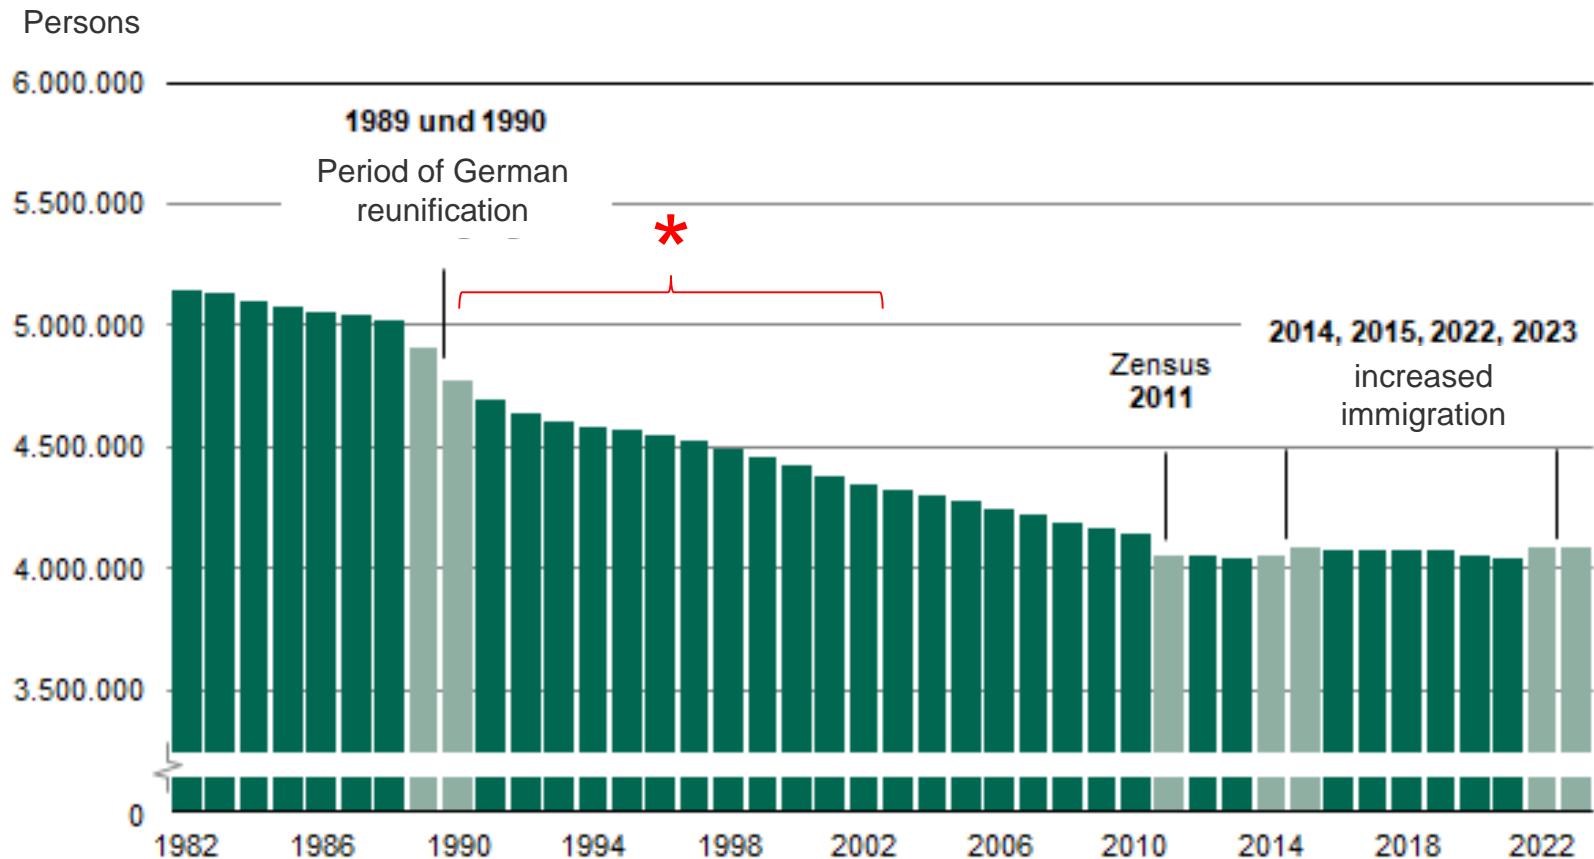

- 65+ years
- 25 - 64 years
- 15 - 24 years
- 0 - 14 years

Population development in Saxony

SÄCHSISCHER
RECHNUNGSHOF

- * → Emigration of well-qualified people
- Economic downturn
- Structural change

Source: <https://www.bevoelkerungsmonitor.sachsen.de/bevoelkerungsbestand.html#a-20468>, eigene Ergänzungen.

Population development in Germany of working age until 2040 (compared to 2023) in %

→ Saxony and other eastern German States are particularly affected within Germany.

→ Saxony with an average age of 46.8 years in 2023, the fifth oldest federal state.

→ Saxony must plan for almost 10 % less working population in 2040.

Measures taken by the state government in response to demographic developments

State modernization

2012: Acceptance of the Locations Act
*

Objective: Creation of a modern and efficient administrative structure
*

German-wide unique project

since 2012

Strengthening rural areas

The Saxon State government supports various programs to specifically supply rural areas weakened by demographic change

since 1990

Administrative reform

November 2009, decision of the state government

*
The Saxon administration's staffing levels should be adjusted to the average of the western federal states to 70.000 jobs by 2020

since 2009

Generation Fund

“Generation fund” to finance future pension obligations (Article 95, paragraph 7 of the Saxon Constitution)
*

Securing opportunities for future generations

since 2012

Measure: State modernization

2012: Acceptance of the Locations Act

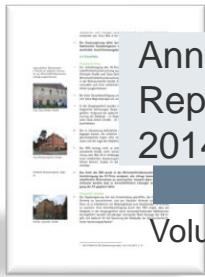

- **Objective:** Creation of a modern and efficient administrative structure
- **1 office (tax office, local court, etc. per district*)**

- Politics
versus
• local interests

*District = 180 - 280 T inhabitants

State modernization

Various audits

Annual
Report
2014

Accommodation
of tax offices

Volume I, Article 26

Annual
Report
2016

Accommodation
of courts and public
prosecutors

Volume I, Article 24

Annual
Report
2016

Accommodation of
State Office for
Construction and
Transport

Volume I, Article 25

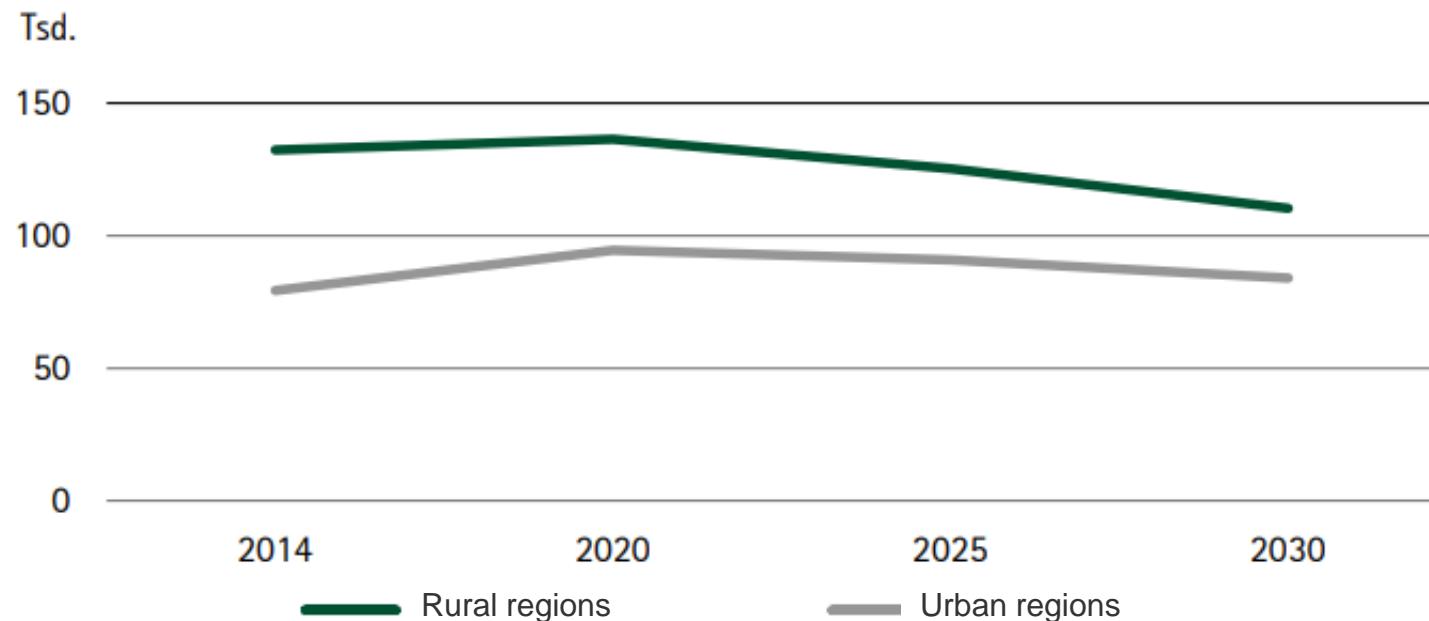

Audit findings:

- Merger effects (savings) significantly lower than expected
- Millions in damages due to failure to maintain buildings
- In some cases above-average renovation costs
- Decision-making basis for Parliament unsuitable because cost-benefit analysis incomplete
- Despite surplus area, some new areas have been created
- Not always the most economical accommodation option chosen

Demographic impacts

Example: Places in children daycare centers

Development in number of children under 6

→ Declining demand for places in children daycare centers

Source: Statistisches Landesamt des Freistaates Sachsen, Datenblatt 6. RBV¹ - Ausgewählte Ergebnisse für den Freistaat Sachsen (Variante 1).

Demographic impacts

Example: Places in children daycare centers

Annual
Report
2019

Funding
investments in
daycare centers

Article 13

Annual
Report
2023

Daycare centers
independent carrier

Volume II, Article 35

Funding of children daycare centers despite declining child numbers:

- Expected future trends in the number of children and needs are not sufficiently taken into account in both the estimation and the distribution of budget funds
- Recommendation: Control measures are urgently needed to ensure sustainable support. Otherwise, there is a risk that unnecessary children daycare centers will be created in the future.

Demographic impacts

Example: Prison places

Special Report 2012: Need for prison places

Necessity of a shared prison
of Saxony and Thuringia?

Audit findings at that time:

- Total prison capacity requirement according to the Ministry of Justice: 3.800; according to calculations by Court of Audit of Saxony only 3.350 prison capacity is needed
- Forecasts regarding the number of prisoners in Saxony do not justify the planned expansion of existing prison capacity
- Construction of a new prison in southwest Saxony is not necessary
- The Ministry of Justice should examine whether a more effective utilization of existing prisons and thus a further reduction of Saxon prisons is possible

Demographic impacts

Example: Prison places

Table 1: Development of occupancy capacity/occupancy

Status 31.03.	2003	2004	2005	2006	2007	2008	2009	2010	2011	2012
Prison Places	4.165	4.178	4.197	4.258	4.307	4.225	4.075	3.840	3.723	3.778
Prisoners	4.310	4.368	4.307	4.199	3.922	3.710	3.632	3.489	3.555	3.534
Utilization (%)	103,5	104,5	102,6	98,6	91,1	87,8	89,1	90,9	95,5	93,5

BUND – LÄNDER
DEMOGRAPHIE
PORTAL

- Thinning of rural areas: fewer jobs, fewer young people and move aways
- This also means that drinking water and sewage pipes are oversized
- The Saxon state government has responded with measures to strengthen rural areas

Audit of over-dimensioning or lack of adaptation of the infrastructure

every
5 years

Audit and report to the commune

Model study program in human medicine (MEDiC) - Lack of doctors

- outdated financing plan as the basis for budget estimates and annual allocation of funding
- Planning of material costs and personnel expenses partly unrealistic

Promotion of telemedicine and Measures for the healthcare industry - Lack of medical specialists

- Financing without technical and conceptual support
- Financial regulations ignored in the concept
- Violation of the principle of economy and efficiency

Funding structural change- Brown coal

- Around 70% of the projects selected in 2021 have low structural impact
- An adequate contribution to managing structural change and creating jobs can hardly be expected

Annual
Report
2023

Model study

Administrative reform

Development of Jobs since 2009

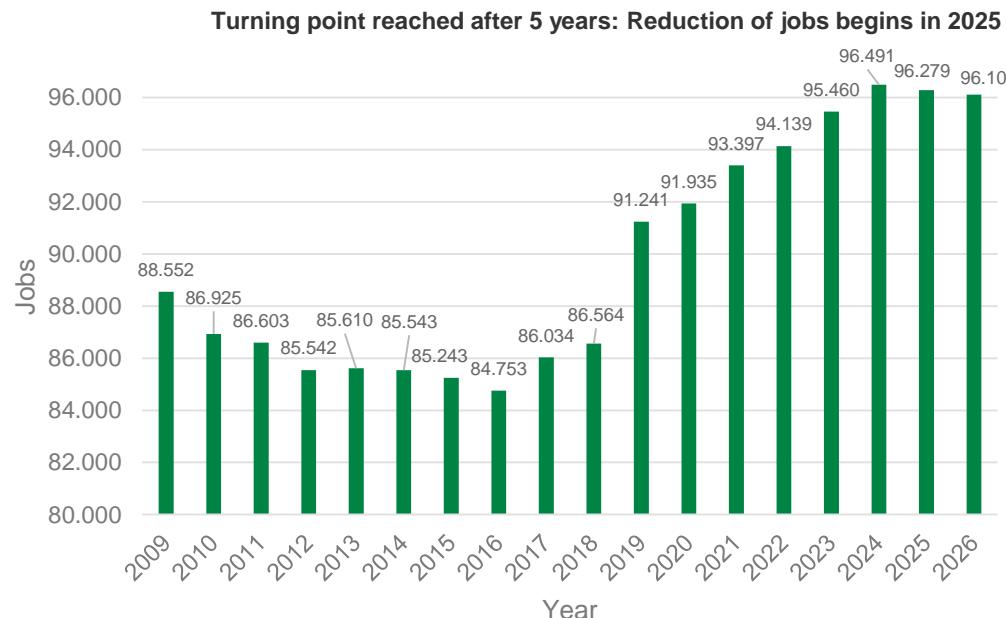

SÄCHSISCHER
RECHNUNGSHOF

Annual
Reports
2022-2024

Staff budget

2022: Volume II, Article 26
2023: Volume II, Article 22
2024: Volume II, Article 28

Source: Stellenentwicklungsbericht des
Staatsministeriums der Finanzen zum Haushaltsplan 2023/2024.

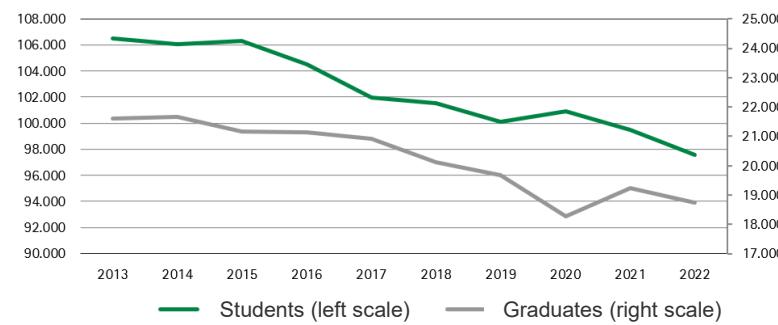

Audit findings

- **Personnel situation develops uncontrolled and without strategy**
- **Personnel expenses (also per resident) are increasing without any prospect of stopping**
- **At the same time increase in external consulting services**
- **demography-related vacancies of jobs at a high level of around 8%**
- **More than half a billion euros of planned budget funds for personnel expenditure were not used**

Administrative reform

Situation at Saxon universities

Development of student and graduate numbers in Saxony

Source: Own illustration.

➔ declining number of students in Saxony

Annual Report 2025

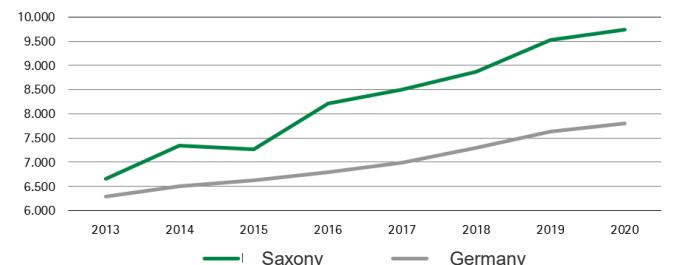

Basic funding of Saxon Universities

Volume I, not yet published

Audit findings:

- Calculation basis for the currently provided total budget of the universities is outdated
- The current mechanism for distributing the total budget among the individual universities creates dubious incentives, as a decline in student numbers while maintaining a constant level of staffing leads to higher per capita income for universities

Basic funding per student at state universities, in € per student

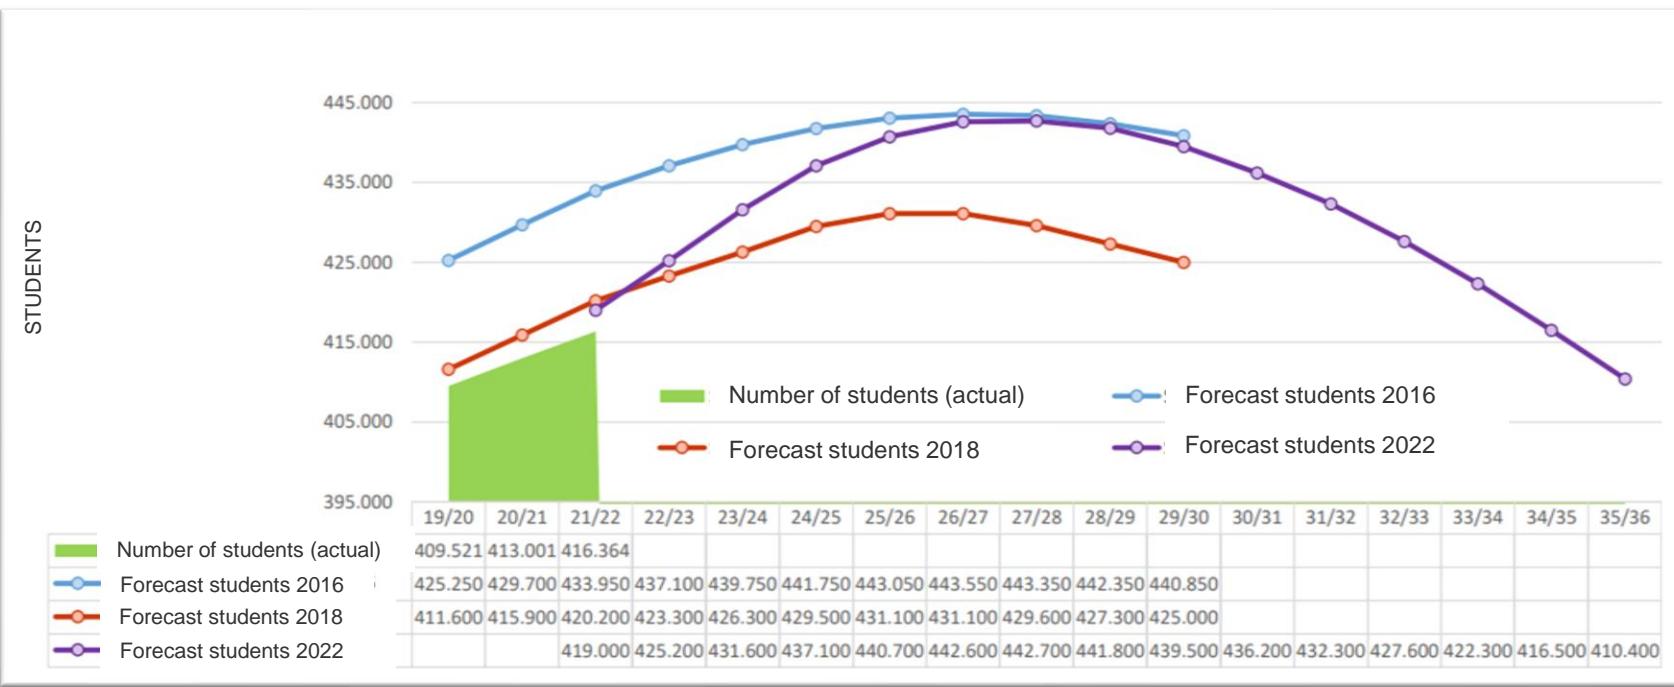

Source: Own illustration.

➔ above average equipment with basic resources – In Saxony, one university teacher supervises 14 students less than the national average

Administrative reform

Declining student numbers in Saxony

- History: Too many teachers in the 1990s
- Currently too few teacher working time capacity to ensure teaching provision
- Declining student numbers: Companies and the public sector compete for graduates

Administrative reform

Special Report 2022 Civil servant status in Saxony

SÄCHSISCHER
RECHNUNGSHOF

- | Content: Audit of State Government's package of measures (EUR 1.7 billion) to manage retirement in the teaching sector
- | Recommendations: Reduction of non-teaching activities by 1/3, use of the instrument of secondment of teachers, no indefinite extension of civil service status
 - 2022: Saxon State Parliament decides to further limit civil service status until 2030
 - 2024: Ministry of Education develops package of measures to ensure teaching provision in Saxony (also includes proposals from the Special Report)
 - 2025: Further package of measures from the Ministry (includes measures from the Court of Audit of Saxony)

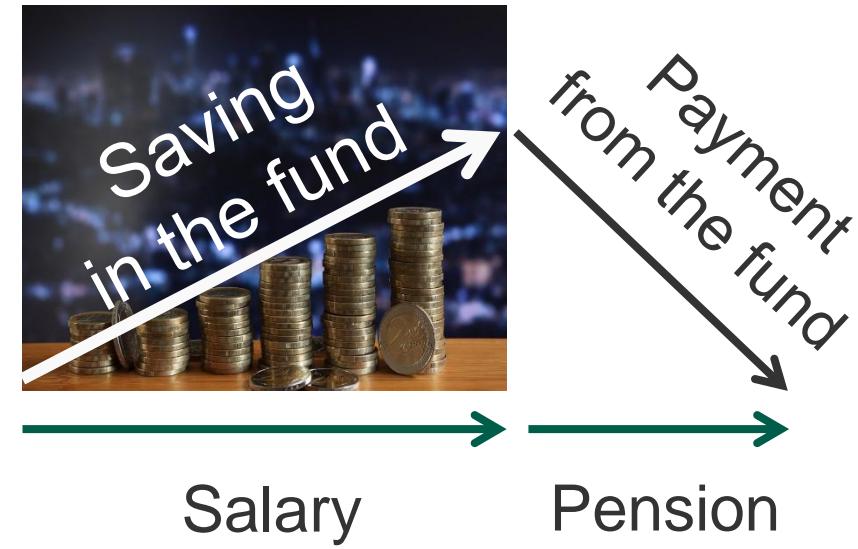

Article 95, paragraph 7 of the Saxon Constitution:
„The Free State of Saxony shall maintain adequate provisions for future claims of future pension recipients of the Free State of Saxony to pension and assistance after the occurrence of the pension event.“

Civil servant receive:

- Salary from the current budget
- Pension from the Generation Fund

Generation Fund

coverage gap in pension obligations (billion €)

SÄCHSISCHER
RECHNUNGSHOF

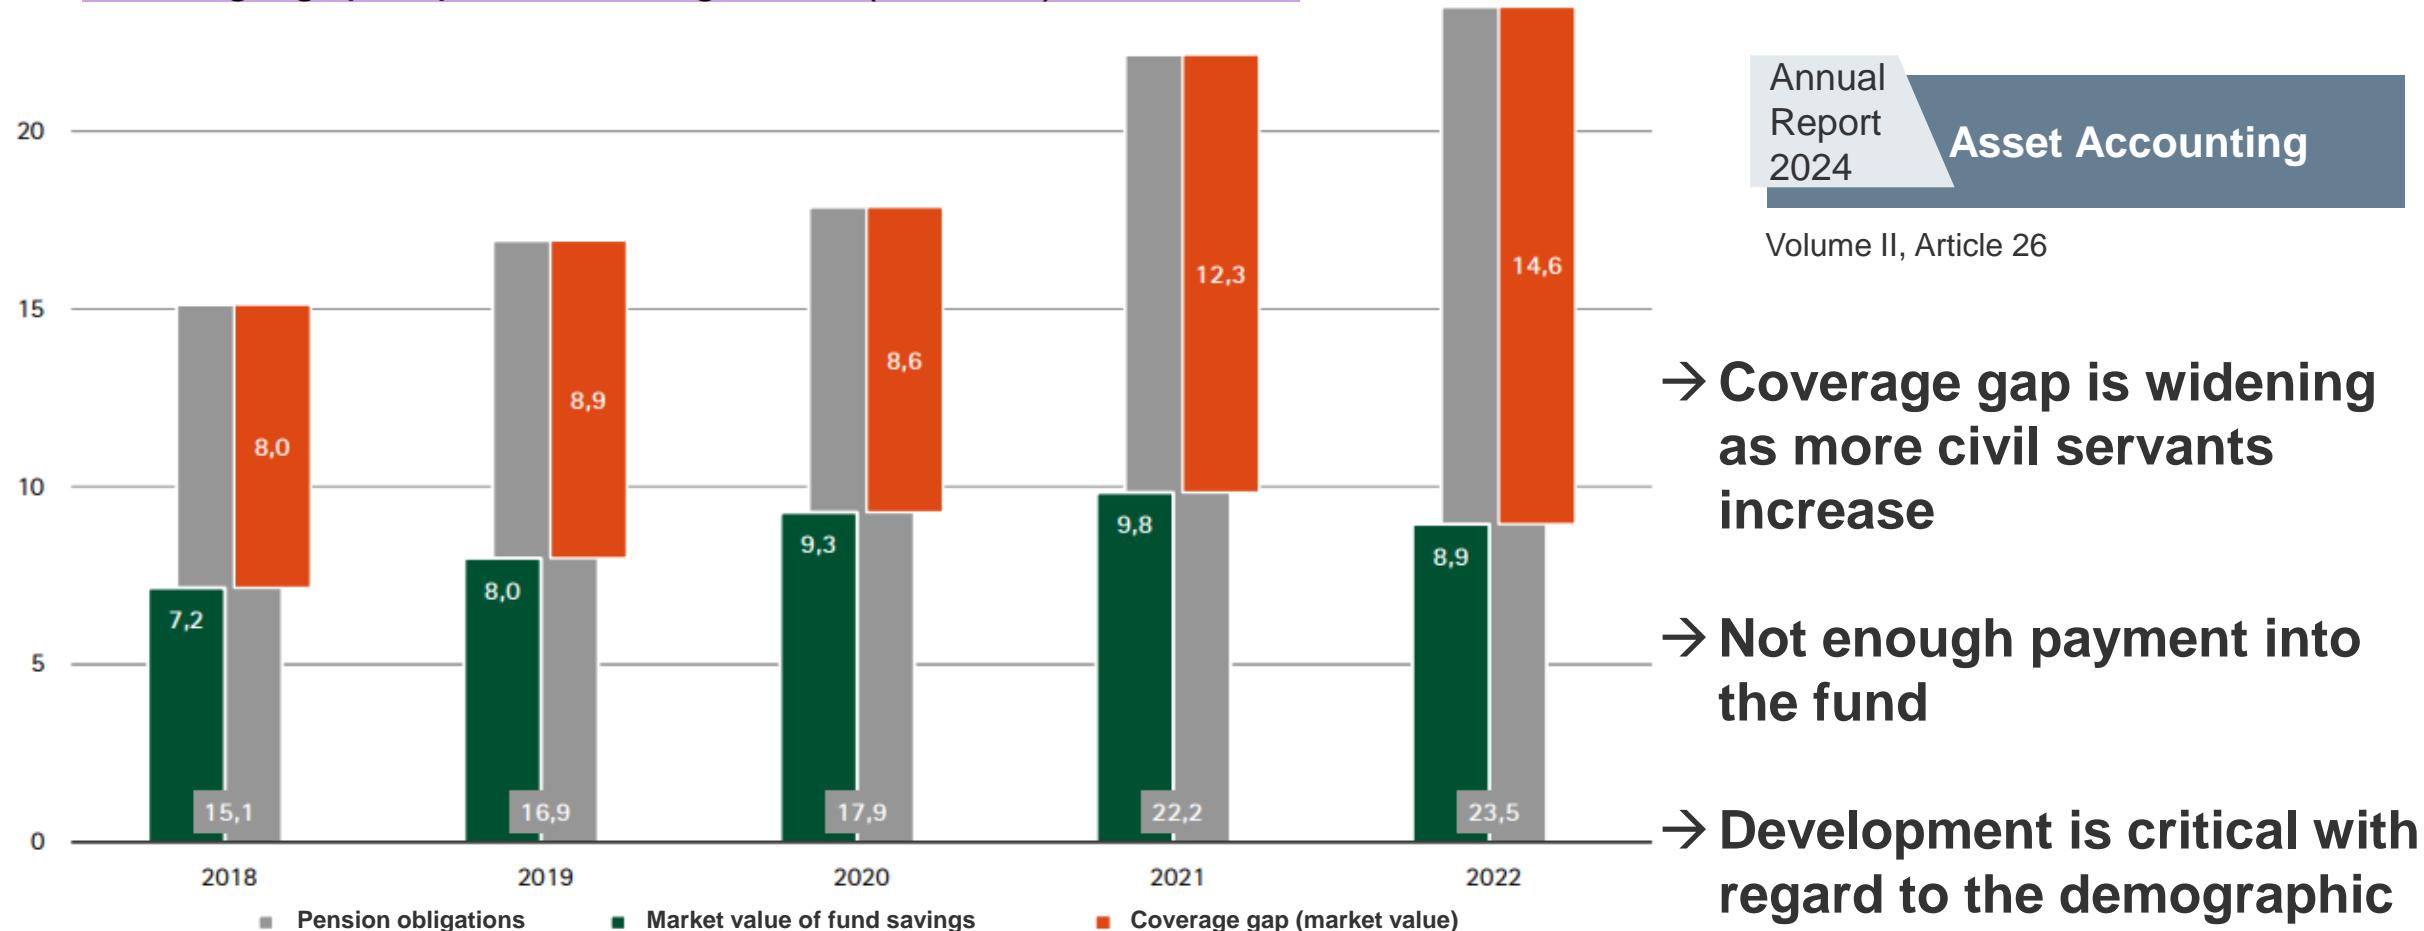

Freistaat
SACHSEN

Annual
Report
2024

Asset Accounting

Volume II, Article 26

Source: 2018 to 2022 Asset Accounting.

Note: Deviations in totals from the calculated result are due to rounding.

→ Coverage gap is widening as more civil servants increase

→ Not enough payment into the fund

→ Development is critical with regard to the demographic development of Saxony, as fewer and fewer are employed

Conclusion

- Politicians often hesitate to clearly name the reality.
- This is why there is a greater need for an independent institution that addresses uncomfortable truths.
- These institutions, particularly in matters of demographics, are the auditing offices.
- Perseverance is necessary - Implementation by the state government often only takes place after 5 years.

Thank you for your attention.
